NEW YEAR, NEW TRENDS

Every summer, industry leaders and influencers look to **Las Vegas Market** to discover hot news and top trends in the world of home design. Here, four interior design firms and "Ahead of the Curve" panelists share what they're seeing in the market and incorporating into projects right now.

RUSTIC VOGUE + COTTAGECORE

Nostalgia and comfort have replaced the previously popular stark modern designs. Rustic vogue is the idea of old and new pieces that work well together, ideal for a home with exposed beams, original floorboards or paneled walls. Cottagecore is rural, yet chic and involves a muted, pastel palette with patterns, along with vintage barware and gold accessories.

BACK TO BLACK

From the little black dress to a furniture accent or full black wallcoverings, the color black is never short on mystery or sophistication. I like to punctuate a room with a few black finishes, accents or hardware to create contrast and drama against lighter tones. Black creates instant elegance and can be used in any room.
